

#30DaysOfCode / Mobile Track

Day 7

Track 1:

Pascal's Triangle

Compute Pascal's triangle up to a given number of rows.

In Pascal's Triangle, each number is computed by adding the numbers to the right and left of the current position in the previous row.

```
1
1 1
1 2 1
1 3 3 1
1 4 6 4 1
# ... etc
```

Track 2:

Restaurant App UI (SIGN IN&SIGN UP)
